

HORRORCRAFT

Build. Craft. Survive the dark.

THE GOAL

You play as **William**. Gather wood, stone and coal, craft tools and weapons, and build shelter before nightfall. When the sun goes down, **Creepers**, **Zombies** and worse rise from the dark and hunt you. Survive as many days and nights as you can – and dig deep for the rare ore that makes the strongest gear.

CONTROLS

KEY	WHAT IT DOES
W A S D / Arrows	Move around
Space	Mine / chop the tile you are facing
C	Open the Crafting menu
B	Open the Build menu, then 1 - 3 to place
T	Open the Create menu (after you craft a Create Table)
E	Raise / lower your shield
Q	Attack with your sword (the tile you are facing)
F	Fire an arrow (needs a bow + arrows)
G	Throw a flare (sets the ground alight)
H	Blow the Tsunami Horn (if you have one)
R	Interact – face a door, chest, chair, TV, car or a villager and press R
1 - 5	Select a hotbar slot

GETTING STARTED

- Chop trees (Space) for wood, then press **C** and craft Planks and Sticks.
- Craft a Wood Pickaxe to mine stone and coal, then upgrade to Stone and Iron pickaxes to reach iron, fire ore and gold.
- Make a Shield and a Sword before your first night.
- Press **B** to build walls, a Door, and place Torches for light and safety.

CRAFTING (PRESS C)

ITEM	WHAT IT'S FOR
Planks / Sticks	Basic building blocks for nearly every recipe
Shield	Raise with E to block a Creeper blast (breaks against a Zombie bite)
Sword	Attack Zombies with Q
Bow + Arrows	Detonate Creepers from a safe distance (F)
Wood / Stone / Iron Pickaxe	Each tier mines tougher ore (stone → iron → gold)
Torches	Light + burn Creepers that touch them
Flares	Throw (G) to ignite ground and set Creepers off
Door, Chest, Chair, TV, Road	Furnish and secure your home (a Chair heals you while you sit)
Pleb Slayer Sword	The only blade that can kill the Warden or shatter a MegaBlock
MegaBlock	Unbreakable — the only thing that stops the Warden
Create Table	Unlocks CREATE mode — invent your own items (see below)
Tsunami Horn	Summons a tsunami — the only way to kill an Iron Golem

SURVIVING THE DARK

- **Day & night.** Monsters spawn at night. Build shelter and light before the sun sets.
- **Your torch.** William always carries a torch — point it at a Creeper or Zombie and it flinches back, afraid of the light.
- **The cave.** The corner cave is pitch dark and rich in ore. Bring a torch and a strong enough pickaxe.
- **Lava kills instantly** — never walk into it (unless you have crafted Wings, see Create). Water blocks your path unless you can float over it.

THE MONSTERS & HOW TO BEAT THEM

MONSTER	DANGER	HOW TO BEAT IT
Creeper	Explodes the instant it touches you	Raise your shield (E), or kill it from range with an arrow, flare, torch or lava
Zombie	Bites to kill — and its bite shatters your shield	Face it and strike with a Sword (Q); shine your torch to scare it back
Warden	Blind but fearless — smashes through almost anything and electrocutes you (ignoring your shield)	Only the Pleb Slayer Sword can kill it; only a MegaBlock can truly block it
Iron Golem	Village guardian. No weapon can hurt it. Turns on you if you harm a villager	The only way to kill it is to summon a Tsunami with the Tsunami Horn (H)

VILLAGERS & TRADING (PRESS R)

Face a villager and press **R** to open a trade menu. Barter your valuables for useful goods:

YOU GIVE	YOU GET
1 Gold	8 Wood / or 8 Stone / or 3 Iron
2 Iron	1 Gold
1 Fire Ore	3 Iron
4 Coal	1 Gold
2 Gold	3 Flares / or 4 Torches
3 Gold + 2 Iron	1 Tsunami Horn

⚠ **NEVER ATTACK A VILLAGER**

If you strike a villager with your sword, the **Iron Golem** will turn on you and hunt you down — and nothing but a tsunami can stop it. Trade with villagers; don't harm them.

CREATE TABLE — INVENT ANYTHING (PRESS T)

Once you craft a **Create Table** (4 Planks + 1 Gold), press **T** to open the Create menu. Type the name of *anything you can imagine* and invent it — it gets its own emoji and can be placed in the world as a labelled block. Some **magic words** in the name grant real powers:

MAGIC WORD IN THE NAME	WHAT IT GRANTS
sword / blade	A real sword (add super or mega for a Pleb Slayer blade!)
shield	A working shield
bow	A bow and 5 arrows
wings / fly / fairy	Wings — float safely over water and lava
super / heal / life	A bigger health bar, fully healed
mega / brick	A MegaBlock to build with
torch / light	3 torches
fire / flare	3 flares
gold / treasure	3 gold

Example: type **rainbow super sword** to invent a rainbow item that also arms you with a Pleb-Slayer-strength blade. Any name works — magic words just add extra powers on top.

SURVIVAL TIPS

- Wall yourself in with a Door before nightfall and keep torches burning.
- Save gold for the Tsunami Horn if an Iron Golem is angry with you.
- Point your torch at anything chasing you in the dark — most things fear the light.
- Sit in a Chair (R) to slowly heal when it's safe.
